DevOps & CI/CD: GitHub Actions, Jenkins, TeamCity, Docker, Azure DevOps, CI/CD pipelines

Language Skills

English – Fluent

Spanish – Fluent

French – Intermediate

Portuguese – Native

Professional Experience

- Senior Full Stack Developer | ALTEN Canada (Société Générale) | Since August 15, 2022

Full-stack development focused on compliance tools for financial activities. Leveraged technologies such as .NET, Java, React JS, Angular, Azure, Node.js for minor APIs and

databases including Oracle, PostgreSQL, and SQL Server to ensure data integrity and regulatory compliance.

- Tech Lead | Boticário Group | January 4, 2021 – July 29, 2022

Developed back-office solutions for over 40,000 employees and franchisees. Worked on backend, frontend, and mobile projects using Node.js, .NET Core, Angular, Android (Java/Kotlin), SQL Server, PostgreSQL, MongoDB, RabbitMQ, and AWS.

- Systems Developer | Ewave do Brasil | October 15, 2020 – December 30, 2020

Led a 6-person team as tech leader. Responsible for full-stack development using Typescript with Angular and React Native for frontend, C# .NET Core for backend, and SQL Server. Also defined the development lifecycle including architecture, testing, and CI/CD processes.

- Senior Systems Developer / Tech Lead | Tático ERP / Nimble | June 14, 2013 – September 30, 2020

Led the development of a spin-off SaaS product for digital agencies and startups using Node.js, JavaScript, jQuery, Angular and later TypeScript, with a backend in SQL Server and Azure. Also worked on a core ERP platform for mid-to-large-sized companies using Delphi Pascal, C# .NET, SQL Server, and Azure. Built mobile apps using Java and Flutter for Android and C++ for Windows CE. Managed a multidisciplinary team of four, improved support operations (reducing tickets by 50%).

- Web Applications Developer | Silverlink Communications | January 2013 – April 2013

Developed internal web applications using JavaScript, jQuery, Bootstrap, ColdFusion, and SQL Server. Focused on frontend implementations and bug fixing.

- Founder / Full Stack Developer | Mestre Gourmet | August 2011 – January 2013

Co-founded and developed a food ordering platform using C# .NET, JavaScript, jQuery, and SQL Server. Created the Android app using Java. Also handled client support and training.

- Web Developer | GHN Inteligência e Tecnologia | May 2008 – July 2011

Developed web-based solutions for mid-to-large-sized companies using C# .NET, SharePoint, JavaScript, and jQuery.
